

## **Riders List for 2015 AQHA World Show**

The American Quarter Horse Association has released the list of open exhibitors who are ineligible to show horses in Level 2 open classes at the 2015 AQHA World Championship Show, tentatively scheduled for November 6-21 in Oklahoma City.

The riders list was developed using a statistical formula to determine the top level of exhibitors competing in each open class in the past three years. In addition to the top exhibitors by points, exhibitors earning a world championship and/or reserve world championship title at an AQHA world show in the past three years will also not be able to show in the Level 2 open classes at the AQHA World Show.
